

## PROBLEMS IDENTIFIED BY TI GEORGIA'S COMMITTEES OF CONCERNED CITIZENS IN KAKHETI, OZURGETI, GORI AND GARDABANI

Members of TI Georgia's Committees of Concerned Citizens have identified up to 30 infrastructural problems/needs in Kvareli, Gurjaani, Akhmeta, Ozurgeti, Gori, and Gardabani. We hope that the local self-government bodies will take account of the identified needs of citizens in the draft budgets of 2021 as much as possible.

Citizens living in Gardabani and Ozurgeti have also joined our Committees of Concerned Citizens this year; accordingly, in 2020 our work encompassed seven regions of the country.

Supply of drinking and irrigation water; improvement of internal roads and drainage canals; reinforcement of slide-susceptible zones; installation of outdoor lighting systems; improvement of kindergartens and sports infrastructure; access to the Internet; taking care of monuments of cultural heritage - this is an incomplete list of the needs to be addressed with regard to which the organization has already applied to the municipalities.

The Committees of Concerned Citizens are informal associations of citizens created through the initiative of TI Georgia which aim to resolve problems in municipalities with direct involvement of the local population and with the mediation provided by our organization.

The document on the needs revealed by the Committees of Concerned Citizens may be an important source for the local municipalities to identify infrastructural and other types of problems in Kvareli, Akhmeta, Gurjaani, Gardabani, Gori, and Ozurgeti. With this aim, below we give a list of problems named by citizens in the aforementioned municipalities:

### 🚩 KAKHETI

KVARELI	
📍 KVARELI	📣 DEMAND OF THE POPULATION
	Provision of public transport for the city of Kvareli and improvement of the system of public transport connecting the city with villages
